

PROFESSIONAL ERGONOMIC NON-MECHANIZED WORK TROLLEY

A VERSATILE, ERGONOMIC AND INNOVATIVE SOLUTION

The JASMIN trolley features a height-adjustable work surface, functioning as a trolley, a mobile workstation, a workbench, and a desk—all tailored to fit the user, not the other way around!

It promotes ergonomic working postures, minimizing the need for manual handling.

By optimizing work methods, it frees up time for higher-value tasks.

Using the JASMIN trolley enhances workplace safety and makes your company more attractive.

Customize your order according to your needs by selecting from our available options or choosing the standard model.
